

Repulpable paper packaging with PLANTIC™ barrier

PLANTIC™ and paper both come from responsible and well managed growing solutions. Together they provide unmatched environmental benefits. Both products absorb CO₂ whilst growing. When combined, they are an unbeatable renewable and sustainable solution.

Recyclable high barrier paper bags and pouches

PLANTIC™ in paper recycling stream

- Water dispersible
- Repulpable
- Washed away in paper recycling
- Clean separation of sealing layer from the paper structure
- Biodegradable in the wastewater treatment unit (WWTU)

➔ PLANTIC™ does not contaminate the paper recycling process
